OUR SKILLS

Years of experience have earned us the knowledge and skills to achieve the best architectural glazing exterior and interior solutions.

WHAT WE DO

We design and customize the installation of all types of fittings both interior and exterior

We provide service maintenance & technical/engineering support, e.g., general installations, trouble shooting and repair

We provide technical expertise in the areas of preventive and predictive maintenance, e.g., new technology, products and services

We offer free estimates upon request, and on a case-to-case basis, free after-sales service.

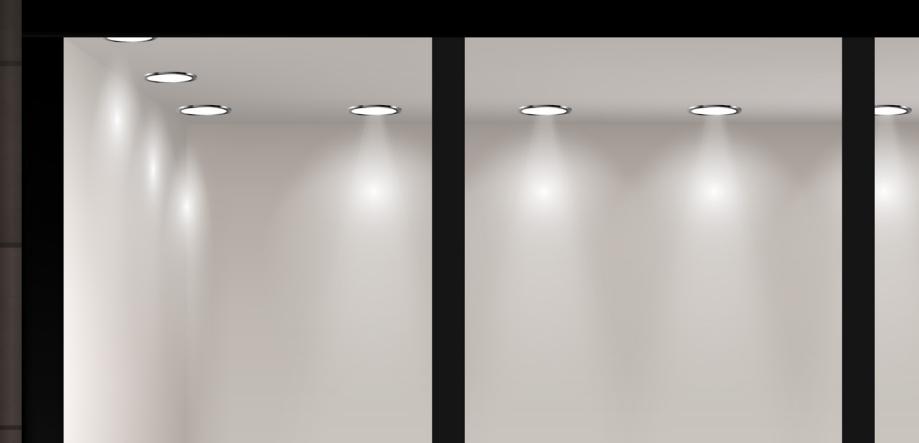

At PARMAN, we provide fabrication of steel doors, windows, gates and grills.

We use industry specific materials for all of our fabrications, such as prime galvanized and satin coat to ensure that our products are protected from moisture related corrosion.

In addition, special arrangements can also be made for services such as spot welding for sub-assemblies. Our steel doors, windows, and grills are manufactured to the highest quality standards.

STEEL FABRICATION

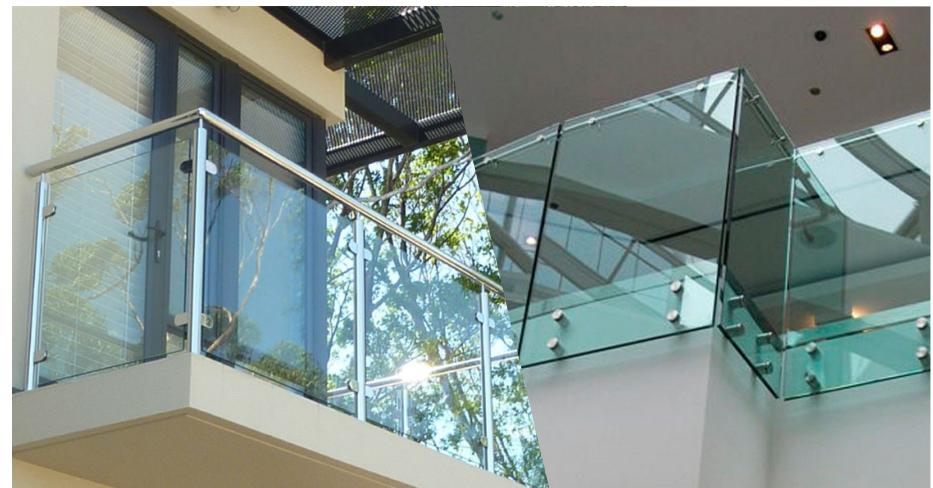

ALUMINIUM INSTALLATIONS:

ALUMINIUM INSTALLATIONS:

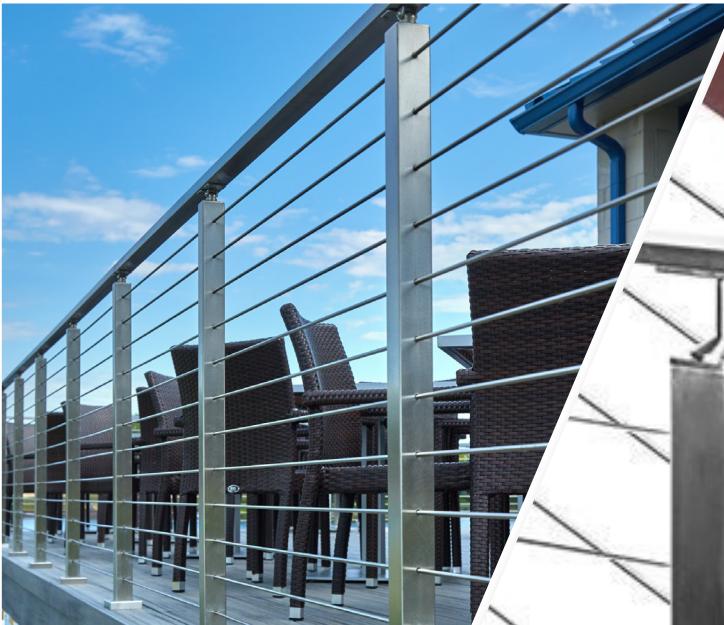

We install all aluminium products including windows, doors, partitions, shower enclosures; structural facades (curtain walling) shop fronts, balustrades (railing), & louvers among others.
